### 8.3 Risk Tolerance / Commercial Risk

The JDA has adopted a Risk Tolerance Framework (RTF) which directs the JDA to consider its risk exposure to contractors/Service Providers in terms of the number of contracts awarded to a single Contractor/service provider or the total value of contracts awarded to a single Contractor/service provider in a particular year.

In terms of the Risk Tolerance Framework, the JDA determine the risk exposure as excessive in instances where the value of the contracts for individual **Professional Service providers e.g. Project manager, Engineers, Quantity Surveyor and Consultants**) is either:

1. The greater of **R8 million** or four contracts/ projects in the current financial year or
2. The greater of **R12 million** or six contracts/projects over two financial years (current year and previous financial year).

1. The greater of **R12 million** or six contracts/ projects in the current financial year or

2. The greater of **R20 million** or nine contracts/projects over two financial years (current year and previous financial year)

A risk analysis shall be undertaken on the bidder with the highest number of points obtained, to determine whether the tenderer does not exceed the JDA's risk framework criteria as stated above, in other words whether it falls within the ambit of the Risk Tolerance Framework as acceptable. JDA reserves the right to award a contract to a bidder who has exceeded the threshold as stated above.

**Over and above the number of projects and values, bidders will be further evaluated on commercial risks which will include but not limited to the following: poor performance on previous projects, available resources for the project, unduly high or unduly low tendered rates, significant arithmetical errors and omissions in the tender offer.**

**The above may impact the outcome of the evaluation.**

- JDA reserves the right to award a contract to a bidder who has exceeded the threshold as stated above.
